Unlimited Gems and Elixir, You can spend like a king. Connection issues have been fixed to a maximum extent. Latest troops such as Electro-Wizard, Executioner and much more added. You can now fight with real humans with unlimited gems. More exciting battles such as Duel Arenas, Group Clan Wars.These are some of the features added now, And lot of features will be added soon in this update, Android users can get into the servers very easily, But iOS users struggle to get into servers, Because of Apple's strict UI and it don't all easily another party (.ipa's to get installed).Some of The Con's of the Private ServersThere might be a lot of exciting features mentioned above, But some of the cons always bring us a disappointment while using Private Servers The server gets auto disconnected sometimes, Makes us annoying while playing. More irritating, When we don't have anything to achieve. It can be boring after continuous hours of playing.These are some of the cons but it is negligible and the disconnection is kept on fixing in every update. Clash Royale FHX is doing everything to keep their servers alive.Check out Clash Royale Private Servers Updated August 2019 Null's Royale August 2019 CR Private Servers 2019 1 CR Private Servers 2019 2The new version of Clash Royale has alot of new features added, Such as Magic Archer troop, Electro Wizard troop and much more troops has been added, New arenas, Soon more features will be updated. Check out old versions of Clash Royale ServersLegendary Royale August 2019Clash Royale Mod APK works awesome for me, Legendary Royale 2019 works flawlessly.As I said early, For Android users, They can get the Clash Royale Private Servers very easily, All they have to do is download the APK and install it, And I am going to provide all the download links for the files above, The files will be unlocked within 100 seconds or you can unlock instantly by supporting us with shares. Follow the below-mentioned steps carefully. Make sure you have separate google id to login into google play So that it won't collapse with the original Clash Royale account you use to play. Download the Clash Royale Mod APK, Make a clean install, I would advise you to remove Clash Royale original version while using the Private Servers, There might be risk of getting banned.Get Clash Royale Private Servers 2019For Android Users – Rooted version – Lights Royale 2019This method works only for Android users who have their phone rooted, Since rooting of their phones gives them more access by unlocking more features.If you don't know how to root your Android phone, You can go to Youtube, Type your mobile model and root it.This method works for both Android rooted and non-rooted users, The process is as simple, Which is conventional downloading and installing. Lights Royale works best on day time so I advise my friends to use it on daytime and avoid it in using nighttime Because at night their servers are overloaded. Make sure you have separate google id to login into google play, So that it won't collapse with the original Clash Royale account you use to play. Download the Clash Royale Lights, Make a clear install, I would advise you to remove Clash Royale original version while using the Private Servers, There might be a risk of getting banned. Install the game and get trained with whatever troops you want.For iOS Users – Non-Jail Break VersionSince the iPhone devices are very strict regarding installing of third party apps, We will go for the working DNS method to connect to the Clash Royale Private Servers, Follow the steps carefully.I will explain what is DNS, Domain Name System, It varies according to your IP address, What we are going to do here is to induce a private DNS of some in your country, So that the DNS matches with the Clash Royale Private Server and you can join directly from your Clash Royale application and enjoy. Below the instructions, You will see different Ip Address. So, You will see different DNS address, Choose one which has a location close to you. But I prefer you to choose USA as default. Because the FHX server is hosted only in USA. open Settings. Then go to WiFi Options. Now tap on the 'i' icon beside your SSID name. Then replace or put any of the followings in your Primary DNS: Europe: 104.155.28.92 USA: 104.154.51.3 Asia: 104.155.220.54 Now start Clash Royale, wait for 5-15 seconds, Hope you would be in Private Servers.It works best on night hours, I have iPhone 6s, At first attempt, It didn't connect, What I did was keep on refreshing and changing servers and trying again and again and finally I got into the servers. So keep on trying friends, If it is not getting connected in the first attempt.For iOS Users – With Jail BreakFor this process, You would need a Jailbroken iOS device, And we are going to work with Cydia and do some process to make the Clash Royale Private Servers work, I personally don't have a jailbroken device, I didn't test working of this. So you should have to try it on your own luck.We will need Xmod games to work on Jailbroken device. Tap Cydia. Go to 'Sources' and click on 'Edit'. Tap on "Add". Enter (https:// apt . xmodgames . com) and tap on "Add Source". Search for 'XMod' to install. Then look for 'Clash Royale Servers', and download the modded Clash Royale IPA.Download Jurassic World The Game Mod Apk 2019 Clash Royale Clan Wars – How it Works?So before getting started to download the latest version of CR Private Servers 2019 , I would like you to know something about Clash Royale Clan Wars, Check out the video to understand more about Clash Royale Clan Wars.
