Abstract

The purpose of the study is to find out most effective activities that could be applied in “Perspectives in Literature Class” while the novel which is one of the most fundamental example of American Literature – “To Kill a Mockingbird” by Harper Lee - is analyzed in terms of various narration techniques including characterization, theme, plot, exposition, point of view, motifs and symbols. In this context, whether the activities including drawing a triangular comparison diagram, Venn diagram, clustering, brainstorming, games, watching documentary and videos, writing journals, drawing plotline, technology integrated games and competitions etc. have positive affects on the students' comprehending the literary devices included in the novel is sought. In order to examine the effects of the activities on pupils learning, a curriculum project was developed so as to teach a unit in literature class via designing a concept map, curriculum project plan (description of the unit, outcome statements, the structure of activities), lesson plans and samples of students' works, overall evaluation plan (worksheets, quizzes, journals), description of the technology integrated and bibliography. The participants in this study were twenty-four eleventh grade high school students enrolled in Ames High School in Iowa, the USA in the second semester of 2007-2008 academic years. The data were collected through observations, interviews and samples of students' works. The results of the study indicated that the success and the comprehension of the pupils' literary devices included in the novel could be developed by means of these selected classroom activities.

1. Introduction

Literature teaching is a significant and fundamental task in language teaching programs. One of the reasons for including literature in language teaching syllabus is because of the educational, psycholinguistic or linguistic nature characteristics of it as it contributes both to the student as an individual and to his or her command on language (Hill,1986). The other reason is that literature offers a bountiful and extremely varied body of written material which is important in the sense that it says something about fundamental human issues, and which is enduring than ephemeral (Collie & Slater, 1998). A literary text is an authentic text and it offers a context in which exploration and discussion of its content lead on naturally to examination of language (Brumfit&Carter, 1991). Depending on the fact that literary texts provide language sources for being used in a classroom environment

Although all are disguised as the dispelling of witchcraft, the false allegations depicted in the play are carried out with a range of different motives. Paper first appears in the play as the judicial list naming the condemned, then as a document of proof outlining Proctor's alleged crimes as a practitioner of witchcraft and agent of the devil. The strict theocracy of the town thus exacerbates the crisis, as joining the accusatory crowd becomes a religious necessity; a virtuous "plane of heavenly combat between Lucifer and the Lord". It is only when Proctor refuses to sign the testimony or have his false confession "posted on the church door", that the symbol of paper begins to serve as a motif of heroism. It was also published in 1953, at the height of the Second Red Scare, or the heightened fear of Communist influences in America. This is depicted by Danforth's stubborn refusal to free the innocents accused, due to his belief that it would lead to a tainted esteem of the court. Miller shows the importance of forgiveness through self-judgement, as Elizabeth assures Proctor that there is "no higher judge under Heaven" than Proctor himself, and he ultimately is able to forgive himself and see the "shred of goodness" within him by the end of the play. Despite this, Miller shows the importance of prioritising personal honour over public reputation through the character of Proctor. Summary2. As such, the play demonstrates how uncontrolled religious fervour can lead to the collective indoctrination of "black mischief", where panic clouds all reason. JudgementJudgement in The Crucible encompasses three meanings; the legal, personal, and spiritual. Thus, as mentioned in the essay question, in a theocracy the rules of religion are treated as the law. This advocating for personal salvation is supported by the character of Hale, who undergoes a similar transformation. Her volatile nature makes her an easy target for Abigail, who manipulates her into betraying the Proctors by planting a poppet in Elizabeth's room, which ultimately becomes the leading evidence in her sentencing. The poppet is also employed as a symbol of deception, as it emphasises the fact that the Salem persecutions are based on lies and falsehood. Miller depicts a community in which private and public characters are one and the same, and the consequences of the obsessive desire to uphold the esteem of their name. These are the fundamental ideas that the play is based upon, and also the elements which make The Crucible hugely relevant in our society today. As Abigail stabs the doll with a needle in its stomach before leaving it on Elizabeth's shelf, she is able to pretend that her own stomach is injured from Elizabeth's practice of voodoo with it. It is a good idea to delegate two paragraphs to the challenges and one to the benefits, due to the fact that Miller wrote the play with the authorial intention of denouncing the repressive rigidity of its government - this means it is easier to think of negatives rather than positives. Step 2: BrainstormLet's break down the term 'theocracy', as this is the focus of this essay topic. Character Analysis4. As the court ignores Elizabeth's outraged protests that she has not kept a poppet since she was a little girl, Miller chastises a justice system which values convenient deceit over the cumbersome truth. PaperAlthough traditionally associated with knowledge and truth, the motif of paper in the play symbolises morality and individualism. All of these girls possess a common fear of Abigail, and carry out her orders in an attempt to evade their own punishment at her hands. As Hale proclaims, "Before the laws of God we are as swine!", Miller showcases the extent of the fearsome "power of theocracy" in circumstances of confusion and hysteria.AccusationThe events of the Salem witch trials detail various types of accusation. Thus, his actions are calculative rather than passionate - a cruel attempt to get "his money back". Quote Analysis7. Thus, Miller uses them to emphasise his allegory of the McCarthy trials, in which numerous people accused others of Communism based on their own fear of being charged by the Court. ThemesMass hysteriaMass hysteria is one of the most significant themes of the play, as Miller depicts the entire town of Salem engulfed by the superstition of witchcraft and devil-worship. The events of the play unfold due to the town's collective fear of the higher power of an "Almighty God". What are the benefits and challenges of this depicted in The Crucible? Step 1: Analyse Here, we are asked to examine the benefits and challenges of a theocratic system, as depicted in The Crucible. Miller uses this illustration of hysteria to show the effects of a strictly repressive Puritan society. Sample Essay Topics8. This blog was updated on 23/10/2020.Contents1. Ultimately, like Proctor, Hale is only able to gain personal redemption through his realisation of the immoral nature of the court and his attempts (albeit unrealised) to save the remaining incarcerated innocents from the fate of the gallows.Quote AnalysisAct I"There are wheels within wheels in this village, and fires within fires!"Ann Putnam speaks this line when she admits to interrogating Tituba about the possibility of witchcraft having caused the early deaths of her seven infants. Although partially fictionalised, it depicts the very real consequences of false accusations based on blind religious faith, as Miller displays the dangers of such baseless rumours. By calling the devil "precise", Hale depicts his true and unflinching belief in its existence, representing the inflexible Puritan mindset. Not to mention, the anonymity of technology has enabled individuals to start modern-day witch hunts as a nameless, faceless user behind the comfort and security of their screens!Historical Context In varying degrees, every work of literature reflects its historical context, or the social and political conditions that shaped its time period. Her extreme courage is ultimately made evident by her willingness to lose Proctor to the hangman's noose, rather than for him to lose his moral virtue by signing his name to lies. Abigail WilliamsDescribed as "a wild thing", Abigail is a beautiful, yet manipulative and deceptive adolescent with "an endless capacity for dissembling". "For twenty week he preach nothin' but golden candlesticks til he had them!" Are the leaders of the community misguided in The Crucible? Likewise, Parris at the beginning of the play threatens Abigail and the girls due to his fear that hints of witchcraft will threaten his already precarious reputation in the church and banish him from the pulpit. As spoken by Danforth in Act III, "We burn a hot fire in here; it melts down all concealment", the motif of the crucible represents the merciless nature of both the Salem and McCarthy court proceedings, and their dogged determination to convict, despite the lack of substantial evidence. The quote also illustrates that she believes that there are more complex and
