How to use KCET Previous year Request documents for effective practice? Topic experts and toppers say that in order to prepare for any exam, it is essential to report the application documents from the previous year. This is because the test-takers who are about to appear for the exam have an idea of what kind of questions come up in the exam, how much measurement is given to a particular section, what the marking scheme is and so on. Difficulty level of questions: Referring to KCET Previous year Application documents, candidates know what the level of difficulty of questions has been over the years. After this, candidates can take notes on which sections are needed to be prepared. As many of the topics: After looking at the application documents from the previous year, candidates can know which topic was the most of the questions asked. Comparison and Analysis: After looking at the various application documents from the previous year, the candidates get an idea of what have been the main topics in the past two or three years. This helps candidates prepare for the next session in a better way. Structure of the most recent KCET question card so far, the structure of the KCET question card has changed a lot and the structure of the most recent document is as follows: Instruction paper Æ Æ “Page 1 In the paper booklet Question is for instructions. In it, important instructions for the exam are mentioned. Applicants must read all these before taking the exam. The exam.the image below for reference: Exam dateThe application sheet codeThe question numbers in the articleInstructions Questions Å” In the following pages, 60 questions are given on the respective topic.
