Made Easy Soil Mechanics Book Pdf, String To Linked List Python, Samsung Galaxy Tab Pro Sm-t520 Review, Reynolds Parchment Paper Uk, Singer Cg-590 C Troubleshooting, Black Sesame Roll Cake, Ooni Koda Gas Bottle, Low Calorie Caesar Dressing, German Street Names In Berlin, Learn the simple steps you can take to ensure that your home, family, and belongings are safe when the summer months start. Style name:130EQ Newtonian Serve dual purpose with one telescope For all of you who prefer to click the elemental nature over the man-made world, Celestron AstroMaster 130 EQ telescope is here to feed your passion. This Astromaster series is for all you beginners who are trying to get acquainted with telescopes. It is compact as well as portable, enabling you to use it wherever you are taking a vacation to some other place. Without causing any overload of technicalities it can be used for dual purpose. It can used for both astronomical and terrestrial viewing. You do not require any set up or any kind of installation for this product. It is an easy to use product which can be used right after you receive it. Highly sturdy German equatorial mounts stabilizes this telescope making it durable. It uses 1 lithium battery which is included in the box of content. Clear view Celestron AstroMaster 130 EQ telescope has two eyepiece. Among these one of them is a 20 mm eyepiece offering 33x magnification. In order to give you a clearer picture this telescope has been coated fully with glass optical parts. Its focal length is of 650 m along with a large aperture and light gathering ability which lets you view the planets and satellite clearly. Lens coating is that of Aluminium. Most of the things have already been taken care of and do not require any labour from your end. Tripod to make it easy It is not easy to explore an altogether different world of stars and planets, yet this tedious task can be made easy with the help of a sturdy tripod. Correct angles and positions form an important part of this process and to make it convenient for you, we offer a pre-assembled tripod. It comes with a manual motion controls which helps in smooth operations. The tripod has 1.25-inch steel tube legs. It forms an important part of the product as its positioning will decide of the kind of view you will have. Now gather your family and friends and show your astronomical skills to them. Sky Level 1 Planetarium software Celestron AstroMaster 130 EQ telescope comes with the Sky Level 1 Planetarium software, a CD-ROM which has the information of about 10,000 astronomical objects along with their visuals. With a little more effort on the users part it becomes easy to use this data in order to identify various planets and other celestial bodies. It uses Newtonian reflector for its optical design and has CG-3 Equatorial as the mount type Its highest useful magnification is 307x. From the Manufacturer Versatile and Dual Purpose The Astromaster series from Celestron Astromaster 130 EQ is one of the top options in this category. This compact and portable telescope offers dual purpose functionality for both terrestrial as well as astronomical viewing without causing an overload of technicalities. The usage of this device is extremely easy and it is almost ready to use out of the box. You also do not need any tools to set up the Celestron Astromaster. Sturdy and durable German equatorial mounts stabilize the telescope. Sharp Visuals and Large Aperture The Celestron Astromaster Telescope has two eyepieces. The first one is a 20 mm eyepiece that offers 33x magnification. Another plus point of this telescope is its fully coated glass optical parts that give you clear and crisp images. This device has a good focal length of 650 m and for someone interested in astronomy, owning the Celestron Astromaster Telescope is a wise decision. Images of planets and Moditional Features Star Gazing can be a tedious task if your tripod is not firm and this condition is completely eliminated in this telescope. The Celestron Astromaster Telescope has a sturdy pre-assembled tripod with manual motion controls for smooth operations. This makes it easy to track and control the telescope has a sturdy pre-assembled tripod with manual motion controls for smooth operations. This makes it easy to track and control the telescope has a sturdy pre-assembled tripod with manual motion controls for smooth operations. and visuals about 10,000 astronomical objects. Novice users can use this database to identify various planets and their positions.
