Epic war saga mod apk

Epic war saga mod apk revdl.

1. Find the name of your Packpage game, use an app on your phone. - Install the 2.0 package name viewer from the playback store. - Scroll down the list of the apps to find the app for which the package name is required. You can also use the search button to quickly search for a particular application or a game. The package name is listed only under the name of the app. 2. Backup of your data. - Open File Manager Find Android Forder! - Go to Android Form you will see two "data" named forder and "obbe". - Open "Data" forder and find your package name game you want Keppp account (example: com.Tennecent.ig). - Rename it to anything you like (example: com.tenncent.ig -> Rename in com.tennecent.ig.keepdata) 3. Uninstall the old version and install new versions. 4. Back to File Manager, UNRENME YOUR PACKPAGE you have renamed in step 2 (exam: "com.ennecent.ig.keepdata" -> Rename it to "com.tennecent.ig"). 5. Open the game and enjoy mod with your save data! Page 2 Member 6 August, 2018 Messages 79 points 8 @ Moddu Lord, opens only on white screen. I have Samsung S7 Edge.
