About the author: Marvin Bittinger has taught mathematics at a university level for more than thirty-eight years. Since 1968, it was employed at the University of Indianaâ Purdue University Indianapolis, and is now Professor Emeritus of Mathematics Education. Professor Bittinger has created over 190 publications on topics ranging from basic mathematics to algebra and trigonometry for the applied calculation. He received his ba in mathematics from Manchester College and his research doctorate in Mathematics Education from Purdue University. Special honors include the distinguished visit professor at the AIR Academy US force and its elections to the Trustee Council of Manchester College from 1992 to 1999. His hobbies include excursions to Utah, baseball, golf and bowling. Professor Bittinger also had the privilege of speaking in many conferences Mathematics, more recently giving a conference entitled "Baseball and Mathematics". Furthermore, it also has an interest in philosophy and theology, in particular, apologetic. Professor Bittinger currently lives in Carmel, Indiana, with his wife, Elaine. He has two grew and married children, Lowell and Chris and four grandchildren. Judy Beecher has a degree in Mathematics of Indiana University mathematics and a degree in Mathematics of Purdue University. She has taught both at high school levels and college with many years of experience of teaching mathematics and precalculus of development at the Indiana-University university of Purdue Indianapolis. In addition to the career of her in the publication of the textbook, she spends time to travel, enjoying her grandchildren and promoting charity projects for a children's field. David Ellenbogen taught mathematics at college level for twenty-two years, spending most of that time in Massachusetts systems and Vermont Community College Systems, where he served both on the curriculum and mathematical development committees. He also taught the college of St. Michael and the Vermont university. Professor Ellenbogen is active in the American Mathematical Association of Two Year Colleges since 1985, having provided service on his Committee for Development Mathematics and as delegate and was a member of the Mathematics Association of America since 1979. He has author of Dozens of publications on topics ranging from Prealgebra to Calculus and handed conferences in numerous conferences on the use of language in mathematics. Professor Ellenbogen received his Ba in math from Bates College and his but in Community College Mathematics Education at the University of the Massachusetts of Amherst. A co-founder of the recycling program of the Colchester Vermont, Professor Ellenbogen has a profound love for the environment and the outside, especially in him home of Vermont. In his spare time, he enjoys playing the keyboard in the Soularium band, volunteering as a mentor of the community, excursions, cycling and skiing. He has two children, Monroe and Zack. Judy Pena obtained the mathematics degree of Kansas State University's mathematics and his degree in Mathematics of the Illinois University. Since then, you have taught the University of Indiana-Purdue University Indianapolis and the University of Butler and continues to focus on quality textbooks for university math students. In his free time she likes traveling, reading, working, spending time with her sons.
