When I first installed this application and opened it I almost erased immediately because he asked to sign up. I thought it was inurite without subscribing as most things. Thanks to God I did not delete it! It is not only not useful, he saved me many soooo much, ink and I could kick me for not finding earlier. I'm joining a lot of photos for the party of my nephews graduation. I was unable to find any decent impression app to use with my phone and printer brother so had to print each 4x6 photo individually. Doing this made the photos for great, was a waste and need to cut with his hand. With this IÀ € I am able to print 2-four photos on a single 4x6 4x6 Photos £ sÀ the perfect size for bonding, easy to see (On the small £) and £ to cut all extra funds sÀ £ o necessÀrios. Saving print collage £ o requires only an extremely advertisements rÀpida Thank you for this aplicaÀSÀ £ o. US in £ the need of extra incluÀdos are subscribed in the £ IÀ € m so here writing this add comment esperanÀsa in that it helps this very application it useful. Thank you, thank you, thank you!!!! Today I made one of those pure collages that had vÀdeos them that À © one characterÀstica incredible alone ... but when I went to salvÀj it À © when I thought I was going to pull my hair out! He fell vÀrias times causing me to have to start the process and trim and more layout once, at least 4 times. Then he would try salvÀj it and never progress to move from 21% to just freeze. I tried again later and finally didnà € t accident and saved, but think how long it took to get to 100%? It took about 1.5 hours just to salvÀj it. Totally killed my phone battery from a fresh load Tamba © m fazÀ it. The Phone vÀdeos were Padra £ taken the Videos and each was 20-25 seconds, and the whole things was less than 25 seconds as they all play at the same time. When making a collage vÀrios vÀdeos À © Greata - Ita nÀ £ o À © prÀjtica this point to even bother usÀj it. What À © À © strange IÀ € ve done in the past (it had been a long time though) and they use to save for 2-3 min or less. Do the £ 85 minutes! NÀ £ o sure what changes, but Cana t be 5 stars when this feature decreased by up Service. Hope you get better soon !!! IÀ € used this app for years and years - itÀ € s been my favorite for the £ ediÀSÀ photos. I loved the filter opÀSÀpes, how the application worked was Àtimo, and most importantly was acessÀvel and, in most cases, completely free. Aft to £ atualizaÀSÀ the latest, I would jump to edit a photo and came to find that theyà € already quite limited the amount of filters that have access; there used to be a multitude of different folders to choose from and now you get four - the rest now cost .99À À € and up. In the past, a lot of other filters always cost money, but theyà € already now changed to be the majority. I think thatà-Only € À © really low quality, considering so many other things about this app now cost money and they need just donÀ € t for. I do not see a problem with charging for something that youÀ € already worked and I understand that À © takes a whole team to get an application going, but this seems excessive-Only. What exactly am I paying for when the application itself À © bogged down with advertisements and lags minutes © point where my phone comeÀsa to overheat when IÀ €'m just trying to add a border to my picture? Really disappointed. Hopefully this changes, IA estarÀj using another application that doesn't try to profit from everything minÀ'scula, however.
